PROFESSIONAL SUMMARY

Multi-disciplinary Full-Stack Software Engineer and UI/UX Designer specializing in scalable system architecture and premium digital experiences. Proven track record in developing robust backend solutions, integrating complex payment APIs, and designing high-converting, user-centric interfaces. A hybrid "Creative Technologist" who bridges the gap between rigorous mathematical logic and absolute visual precision to deliver end-to-end digital products.

TECHNICAL SKILLS

- **Backend & Systems:** Java, Spring Boot, PHP, Laravel, Python, Flask, System Architecture, Relational Databases.
- **Frontend & Mobile:** Flutter, HTML/CSS, MJML (Responsive Email Development), Responsive Web Design.
- **APIs & Integrations:** RESTful APIs, M-Pesa Daraja API Integration, Microservices.
- **Design & Branding:** UI/UX Architecture, Graphic Design, Brand Identity, Visual Hierarchy, Typography.

- **Methodologies:** Problem Solving, Agile Collaboration, Cross-Functional Communication, Project Management.

PROFESSIONAL EXPERIENCE

Full-Stack Software Engineer & UI/UX Designer *Freelance / Self-Employed* | Nairobi, Kenya | 2025 – Present

- Architected and deployed a comprehensive Property and Tenancy Management System using Laravel, featuring automated billing cycles, secure deposit workflows, and real-time occupancy trackers.
- Engineered secure, real-time payment processing pipelines by integrating the M-Pesa Daraja API with a Flask backend.
- Developed a microservice-based Invoice Service utilizing Java and Spring Boot to manage high-volume transaction generation and automated mailer templates.
- Coded pixel-perfect, highly responsive corporate mailer ecosystems using the MJML framework for clients (e.g., extense), ensuring flawless rendering across legacy and modern email clients.
- Designed end-to-end UI/UX architectures, wireframes, and interactive prototypes prior to development to guarantee frictionless user journeys.

Graphic Designer Intern *Peggie* | Nairobi, Kenya | 02,2025 – 05, 2025

- Spearheaded visual identity and graphic design initiatives for a corporate shipping firm, elevating the brand's market presence through premium marketing collateral.

- Designed and standardized digital assets, including corporate mailer templates, marketing posters, and high-resolution visual content.
- Collaborated directly with executive management to translate complex logistics and shipping concepts into clear, engaging visual media for clients and stakeholders.

FEATURED PROJECTS

- **Cross-Platform Fitness Application:** Engineered a mobile application using Flutter, implementing robust user progress tracking, dynamic state management, and personalized workout dashboards.
- **Student Management System & Job Portal:** Built scalable, fully functional platforms with optimized relational databases, clean routing, and dynamic user interfaces using Laravel and PHP.
- **WRC Brand Activation (Tiny Treasures Africa):** Directed the visual identity and promotional design for rally racing events, optimizing typography fading and high-contrast colour grading to communicate speed and premium market positioning.

EDUCATION

Bachelor of Science in Computer Science *Moi University | Eldoret, Kenya | Expected*

Graduation: 2027

- **Current Status:** 4th Year
- **Focus Areas:** Software Architecture, Algorithm Development, Full-Stack Web/Mobile Applications, Database Management.
